MINISTER’S DETERMINATION CONDITIONS OF APPROVAL

Pursuant to Regulation 87-83 under the Clean Environment Act
April 22, 2005
File Number: 4561-3-950

1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
2. Commencement of this undertaking must occur within three years of the date of this determination. Should commencement not be possible within this time period, the undertaking must be re-evaluated under the *Environmental Impact Assessment Regulation (87-83) – Clean Environment Act*, unless otherwise stated by the Minister of the Environment and Local Government.
3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document (dated May 15, 2003), as well as all those identified in all subsequent correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Director of the Project Assessment Branch of the Department of the Environment and Local Government (DELG) every 6 months from the date of this Determination until such a time as all the Conditions have been met.
4. If it is suspected that remains of archaeological significance are found during construction, all activity shall be stopped near the find and the Resource Manager of the Archaeological Services Unit, Heritage Branch of the Culture and Sport Secretariat, shall be contacted at (506) 453-2756.
5. A Wetland and Watercourse Alteration Permit must be obtained prior to the commencement of project activities. Please contact Ms. Joanne Glynn, Manager, Watercourse and Wetland Alteration Program, DELG at (506) 457-4850 for additional information.
6. The undertaking affects Crown land, therefore appropriate approval must be obtained from the Department of Natural Resources (DNR) prior to the commencement of project activities. Please contact Mr. Kevin O’Donnell at the DNR Crown Lands Branch at (506) 453-2437 for further information.
7. Visual monitoring of the turbidity of the water near the work site (channel crossing and excavating site) must be undertaken. If any changes occur in the turbidity of the water as a result of this undertaking, the works must be stopped immediately and Mr. Ernest Ferguson, Oceans and Habitat Area Chief, Fisheries and Oceans Canada, Tracadie, must immediately be contacted at (506) 395-7722.
