MINISTER’S DETERMINATION

CONDITIONS OF APPROVAL

Pursuant to Regulation 87-83 under the Clean Environment Act

August 21, 2007

File Number: 4561-3-1079

1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
2. Commencement of this undertaking must occur within three years of the date of this Determination. Should commencement not be possible within this time period, the undertaking must be registered under the *Environmental Impact Assessment Regulation (87-83)* – Clean Environment Act again, unless otherwise stated by the Minister of Environment.
3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document dated May 2, 2006, and to those in all correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Director of the Project Assessment Branch every 6 months from the date of this Determination until such a time as all the Conditions have been met.
4. If it is suspected that remains of archaeological significance are found during construction, all activity shall be stopped near the find, and the Manager of Archaeological Services, Heritage Branch of the Department of Wellness, Culture and Sport, shall be contacted at 453-2756 for direction.
5. The proponent must prepare an Environmental Protection Plan (EPP) illustrating mitigation measures to be put in place for the construction phase of the project. A work schedule, outlining when each aspect of the project will take place shall be part of the EPP. The plan must be submitted to the Director, Project Assessment and Approvals Branch, Department of Environment for review and must be approved prior to the commencement of all construction associated with the project. Please contact Mr. Paul Vanderlaan, P.Eng., Director, Project Assessment and Approvals Branch at (506) 444-5382 for details regarding this matter.
6. The proponent must obtain a Watercourse and Wetland Alteration Permit from the Regional Services Branch, Department of Environment, for any activities that are carried out within 30 meters of any watercourse or wetland before any construction activities commence. It is recommended that submission of this application occur at least 90 days prior to the commencement of any construction activity. Please contact Mr. Denis Deveau, Director, Watercourse Alteration and Wetlands Program (506) 444-5149 for further information.

7. The proponent must obtain an Approval to Construct from the Project Assessment and Approvals Branch, Environmental Management Division, Department of Environment before construction activities may be commenced, and an amendment to the current Approval to Operate. Please contact Mr. Paul Vanderlaan, P.Eng., Director, Project Assessment and Approvals Branch at (506) 444-5382 for details regarding this matter.
8. The proponent shall ensure that, as a result of implementation of project initiatives, there are no resulting impacts to the quality of the wastewater effluent released from the facility.
9. Verification of predicted decreases in emissions as presented in the EIA must be submitted to the Director, Project Assessment and Approvals Branch, Department of Environment, within one year of project implementation.
