INTRODUCTION

CONTROL OF MUNICIPALITIES ACT

Municipal Financial Reporting Manual

The Commissioner of Municipal Affairs hereby prescribes, pursuant to Section 8 of the <u>Control of Municipalities Act</u>, Chapter C-20 of the R.S.N.B. 1973, a revised Municipal Financial Reporting Manual to be applicable to municipalities and related municipal service bodies in the Province of New Brunswick, effective immediately.

Dated at Fredericton, New Brunswick, this 16th day of December, 2011.

Original signed by

Sylvie Levesque-Finn Commissioner of Municipal Affairs

PURPOSE AND APPLICATION

The Province of New Brunswick's <u>Control of Municipalities Act</u> provides the statutory requirement for the Commissioner of Municipal Affairs to establish the accounting and reporting systems to be used by Municipalities in the Province, and to require compliance with the systems so established.

Pursuant to this authority, the Department developed the Municipal Financial Reporting Manual to identify the established systems and to assist Municipalities with compliance under the <u>Control of Municipalities</u> and other Acts.

Compliance with established systems and with the <u>Municipalities</u> and other <u>Acts</u> is the responsibility of the municipal council or board of directors. Any non-compliance matters must be disclosed in the financial statements.

It should be noted that references throughout this manual to "municipalities" are intended to include rural communities, utilities, commissions, boards, associations, corporations, and other entities to which the applicable legislation specifically applies or that are owned and/or controlled by Municipalities.

NB municipalities are to adopt Public Sector Accounting Standards for the fiscal year beginning January 1, 2012 with retroactive application to the January 1, 2011 fiscal year.

The additional disclosures required in the statements as a result of legislative and financial reporting system provisions are contained in this manual and are in lieu of Financial Information Returns which were eliminated in 1988 in favour of comprehensive, standardized financial statements.

The Reporting Manual is <u>not</u> intended to be an authoritative source of Canadian generally accepted accounting principles. The Handbooks of the Public Sector Accounting Board and the Canadian Institute of Chartered Accountants should be reviewed as the authoritative sources of guidance on accounting and financial reporting for municipalities.

This manual is intended to provide a reference for the application of accounting and reporting requirements for New Brunswick Municipalities in the context of the systems established under the Control of Municipalities Act, and a reference for the interpretation and application of certain statutory requirements of other Acts affecting the financial operations of New Brunswick Municipalities. The Manual is intended only as a reference and a guide to the statutory requirements - the applicable legislation should be referred to for authority.

EFFECTIVE DATE

This edition of the <u>Municipal Financial Reporting Manual</u> becomes effective for reporting periods beginning January 1, 2012 with comparative financial statements and note disclosures for fiscal 2011. Municipalities are required to adopt the accounting and reporting requirements of this Manual. Early adoption is permitted.

Departures from, or non-conformities with, the Manual may be permitted, in extenuating circumstances, following adoption by a Resolution of Council and approval by the Commissioner of Municipal Affairs.

All departures from, or non-conformities with, this manual are to be disclosed by way of a note to the financial statements and indicating whether or not such approval has been obtained.

ADDITIONS AND REVISIONS

The Department of Local Government will provide amendments to this manual from time to time as deemed necessary.

Users are invited to submit comments concerning the information contained in this Manual or to provide additional matters that might be appropriately included. The Commissioner of Municipal Affairs has the responsibility under the <u>Control of Municipalities Act</u> to establish systems, but suggestions that will enhance the accounting and reporting process, or that will improve the application of the basic concepts, would assist in this process.

ACCOUNTING AND REPORTING

BASIS OF ACCOUNTING

Financial statements should be prepared in accordance with the Canadian Institute of Chartered Accountants standards as outlined in the Public Sector Accounting (PSA) Handbook. Where the PSA Handbook is silent, preparers of the financial statements should follow Part II of the Canadian Institute of Chartered Accountants (CICA) Handbook.

FUND ACCOUNTING

Municipal accounting practice in the Province of New Brunswick is based on fund accounting concepts. In general terms, this means that Municipal operations are considered similar in many respects to "trust funds", and the operations of each "trust" within the Municipality are accounted for as separate entities within the overall accounting and reporting system for the Municipality. General Municipal operations are transacted in the General Fund; utilities are operated in appropriate Utility Funds; and reserves are separate Funds.

The fund accounting concept requires that the activities of each fund be administered and accounted for as independent entities. Each entity within the overall Municipal unit will thus have separate, self-balancing records and financial reports, setting out the revenue earned, the expenses incurred, and the continuity of the equity, or net resources, of the particular entity.

All of the entities or funds under the stewardship of the elected officials are to be reported in the annual financial statements of the Municipality. Any consolidating entities should be described in the financial statements including a summary of key financial information such as assets, liabilities, revenues and expenditures.

CLASSIFICATION OF ACCOUNTS

Municipal revenues and expenditures shall be classified in conformity with the framework set out in Section 5000 - "Chart of Accounts for New Brunswick Municipalities" and the Statistics Canada publication "A Financial Information System For Municipalities".

ACCOUNTING AND REPORTING OBJECTIVES

The Municipal accounting system must make it possible to:

- a) Determine and demonstrate compliance with legal provisions,
- b) Maintain an adequate system of internal control,
- c) Prepare financial statements that will fairly and fully disclose the financial operations of the Municipality in conformity with Public Sector Accounting standards per the CICA handbook and the New Brunswick Municipal Financial Reporting Manual.

ANNUAL FINANCIAL STATEMENTS

Every Municipality's annual financial report should include the following statements:

- Consolidated Statement of Financial Position
- Consolidated Statement of Operations
- Consolidated Statement of Change in Net Debt
- Consolidated Statement of Cash Flow
- Notes to the Consolidated Financial Statements (see sample statements)
 - 1) Per PSA standards
 - 2) Additional disclosures
 - Reconciliation of accumulated surplus (transition only)
 - Reconciliation of annual surplus
 - Reconciliation of water & sewer accumulated fund surplus/deficit
 - Short-term borrowings compliance
 - Subsidiary operations
 - Segment disclosures
 - Reconciliation of funding deficit on adoption of PSA
 - Statement of reserves per Regulations 97-145 of the <u>Municipalities Act</u> and 96-11 of the Clean Environment Act
 - Investment holding activity and details
 - Certification of resolutions for transfers to/from reserves
 - Operating budget to PSA budget
 - Water cost transfer details per regulation 81-95
 - Operating Funds supplementary schedule of revenue and expenditure accounts

MUNICIPAL YEAR END

Municipalities, rural communities and all boards, commissions, and other entities to which the Control of Municipalities Act applies, are to have year ends of December 31 for financial reporting purposes.

CHANGE IN ACCOUNTING POLICY

After the initial adoption of the new Public Sector Accounting standards, the municipality should follow "PS 2120 Accounting Changes" per the public sector accounting standards.

If "PS 2120 Accounting Changes" allows for prospective application, this option is recommended.

TANGIBLE CAPITAL ASSETS

Tangible Capital Assets should be capitalized, classified and amortized in accordance with the *NB* Guide to Accounting and Reporting TCA approved and issued by the Department of Local Government.

Tangible Capital assets acquired with operating funds are to be so identified in the operating fund as Capital Expenditures from Operating (or Budget) and reported under Fiscal Services.

In those circumstances where assets are to be purchased for use by two or more municipal units, or by more than one Fund in a particular Municipality, the preferable practice is for one entity to acquire the asset and provide the funding (including debt, if applicable), and charge the other entity, or entities, for the use of the asset.

For fund accounting purposes, proceeds on disposal are to be recorded in the Operating Fund. Such amounts would, therefore, be included as reconciling items from the PSAS statements.

BORROWING

Borrowing by municipalities is subject to the <u>Municipalities Act</u> and the <u>Municipal Capital</u>
Borrowing Act.

Borrowing to finance General Fund operations is limited to four percent of the Municipality's budget for that year, or five thousand dollars, whichever is greater.

Borrowing to finance Utility Fund operations is limited to fifty percent of the budgeted revenue for that year.

Borrowing, for this purpose, has been interpreted to mean borrowing of any type from a financial institution (loan, line of credit and bank account overdraft reported in the ledger, even if caused by outstanding cheques).

The annual financial statements are to indicate by way of note(s) that borrowing for current operations is, or is not, within the limits prescribed.

Temporary borrowings to finance a capital project during construction are to be authorized by the Municipal Capital Borrowing Board prior to any commitments being made. Such borrowing should be for the amounts of the actual expenditures as they are made, and replaced with long-term debt when the total expenditures for the project are accumulated. Short term borrowing for capital purposes is to be recorded in Capital Fund.

By virtue of Section 10 of the <u>Municipal Capital Borrowing Act</u>, authorization of the Municipal Capital Borrowing Board for a proposed loan, issue of debentures, or guarantee of repayment of any loan or issue of debentures, is of no effect with respect to an unexpended amount if the project has been completed at a cost less than the amount authorized. Also, the authorization of the Board has no effect if the project has not been commenced within two years from the date of such authorization.

Compliance with the requirements of the <u>Municipal Capital Borrowing Act</u> is to be disclosed in a note to the annual financial statements.

INTER-FUND BALANCES

An inter-fund balance outstanding at year end must be repaid in the next year. An exception will be permitted in order to finance a capital project approved by the Municipal Capital Borrowing Board until it is completed. Upon completion of the project, the inter-fund account must be replaced with permanent funding.

Inter-fund loans outstanding at year end, other than those permitted in order to finance approved capital projects noted above, are to be identified in the financial statements, and situations of non-compliance indicated as such in the notes.

OPERATING FUND SURPLUS/DEFICIT

Subsections 89(8) and 89(9) and 190.084(8) and 190.084(9) of the <u>Municipalities Act</u> provide that an audited general operating fund surplus or deficit is to be included in the second next ensuing year's budget of the municipality or rural community.

Subsections 189(5) and 189(6) provide that a utility operating fund surplus or deficit of a municipality, rural community or water and/or sewerage commission is to be included in one or more of the operating budgets of the four subsequent years, commencing with the second next ensuing year.

Subsections 15.7(6) and 15.7(7) of the <u>Clean Environment</u> Act provide that the surplus or deficit of a solid waste commission shall be included in the second next ensuing year's budget.

The operating fund surplus or deficit is determined as being the residual balance of revenue over expenditure for the current year after adjustments for: tangible capital assets, including amortization and proceeds on disposal; principal debt repayment; transfers to/from reserves and funds; transitional funding provisions for post employment benefits and the carry forward of the second previous year surplus or deficit (see "Reconciliation of annual surplus" note in the sample financial statements).

The accumulated surplus or deficit of the General Operating Fund should equal the surplus or deficit of the current and immediately preceding period.

The financial statements should disclose, by way of a note, the years of origin of the <u>accumulated</u> utility operating fund surplus/deficit amount to enable readers to identify the method of disposing of prior year surplus/deficit amounts.

TRANSITIONAL FUNDING PROVISIONS

The accrued liability for previously unrecorded/unfunded liabilities as at December 31, 2011 shall be provided for in municipal operating budgets beginning in 2013 as follows:

- a) Pension benefit obligations should be funded in accordance with the requirements of the New Brunswick Pension Benefits Act and Regulations
- b) Non vesting future employee benefits should be funded on a "Pay as you Go" basis;
- c) Vesting future employee benefits should be funded over:
 - i. The lesser of:
 - a) 7 fiscal years;

and

b) The number of years identified in the "cash flow forecast" prepared by the actuary in support of the liability accruals.

Or

ii. The number of years approved by the Commissioner of Municipal Affairs

The funding policy must be disclosed in the notes to the annual financial statements. The scheduled funding amounts will be included in the reconciling items for purposes of determining the operating funds surplus' or deficits.

WATER COST TRANSFER FOR FIRE PROTECTION

Regulation 81-195 under the <u>Municipalities Act</u> authorizes a Municipality to charge a portion of its water costs to fire protection service. <u>www.gnb.ca/0062/PDF-regs/81-195.pdf</u>

The permitted methods for calculating the transfer and the qualifying expenditures are specifically defined in the Regulation. The Chart of Accounts Section of this Manual (Section 5000) includes a second column in the water and sewer accounts section identifying those accounts which do not qualify to be included in the calculation.

The actual amount of the transfer of water costs to the general revenue fund cannot exceed the maximum outlined under Regulation 81-195.

The method used to determine the transfer should be identified in a note to the financial statements.

RESERVE FUNDS

Establishment and Types

Municipalities, rural communities, water and sewerage commissions and solid waste commissions may, under sections 90, 190.085 and 189(7) of the Municipalities Act and 15.7(8) of the Clean Environment Act establish and contribute to an operating and a capital reserve fund in each of the general or utility fund. The rules governing the establishment and management of the reserve funds are set out in Regulations 97-145 of the Municipalities Act and 96-11 of the Clean Environment Act.

www.gnb.ca/0062/PDF-acts/m-22.pdf

www.gnb.ca/0062/PDF-regs/97-145.pdf

http://laws.gnb.ca/en/ShowPdf/cs/C-6.pdf

http://laws.gnb.ca/en/ShowPdf/cr/96-11.pdf

Transfers To and From Funds

The establishment, contributions and withdrawals from reserve funds are to be done by resolution. Resolutions must be made by December 31 of the calendar year, specifying the applicable fund as well as the dollar amount to be contributed or withdrawn.

Transfers from the Capital Reserve Funds must be transferred directly to the Capital Funds (as opposed to flowing through the operating fund then to the capital fund as a transfer under fiscal services.)

Designation of Funds

Other than identifying the reserve fund to which monies are to be transferred, councils must not designate monies within the reserves to be used for specific purposes.

AUDIT REQUIREMENTS

AUDITOR AND APPOINTMENT

The <u>Municipalities Act</u> restricts the appointment of Auditors generally to persons capable of performing a satisfactory audit, and specifically to Chartered Accountants and Certified General Accountants [subsection 82(1)]. The Minister may, under the Act, cancel the appointment of an Auditor who is considered incapable of performing a satisfactory audit or who otherwise fails to do so.

If Council fails to appoint an Auditor, or if an appointment is cancelled by the Minister, the Minister may appoint an Auditor for the Municipality and the fees and expenses of the Auditor so appointed shall be paid by the Municipality.

A member of Council cannot be appointed as an Auditor during the member's term of office; term of office refers to the period ending on the fourth Monday in May following the next quadrennial election.

AUDITOR RESPONSIBILITIES

The Auditor shall perform such duties as prescribed by regulation and by council. This includes performing an audit and completing an Auditor's Report on all accounts and funds in accordance with Canadian Generally Accepted Auditing Standards.

The Auditor is advised to read and be familiar with the various Acts pertaining to Municipalities, as well as the requirements of this Manual, before proceeding with the audit. Provincial Acts that have particular significance for Municipal Auditors are listed in Appendix B to this Section of the Manual.

Appendix A to this Section includes a list of certain matters the Department looks for in the reviews of the annual Audits submitted; the list is intended only as a source of reference and should not be considered an adequate substitute for knowledge and understanding of the requirements of the Acts and Regulations. It is suggested that Auditors might refer to the list during the audits as a reminder of matters to be considered.

REPORTS

The Auditor shall complete the annual audit by the first day of March and, within ten days thereafter, forward to the Minister <u>two</u> copies of the audited financial statements together with a copy of the Auditor's Report. Refer to subsections 82(3) and 82(4) of the Municipalities Act.

The Auditor shall also provide the Minister with copies of audit or management letters, if any, issued to the Municipality during the year and the details of bonding insurance required under the Act.

While it is the responsibility of every Municipality to comply with the various Acts and Regulations pertaining to Municipalities, the Auditor has a responsibility to report those situations where the financial statements may reflect events that are not in compliance.

APPENDICES

SECTION 4000

APPENDIX A

REFERENCE CHECKLIST

This list is intended only as a source of reference and should not be considered an adequate substitute for knowledge and understanding of the requirements of the Acts and Regulations. It is suggested that Auditors might refer to the list during the audits as a reminder of matters to be considered.

- 1. Are inter-fund balances in compliance?
- 2. Is there notes stating that inter-fund accounts are, or are not, in compliance?
- 3. Is there outstanding authority from the Municipal Capital Borrowing Board (MCBB) for short term borrowing in Capital Funds?
- 4. Is there a note indicating that short term borrowing in Capital Funds has, or has not, been authorized?
- 5. Is there a note indicating that Capital Funds debt has, or has not been, authorized?
- 6. Does long term debt agree with MCBB records?
- 7. Was General Capital Fund borrowing during the year within the 2% of Tax Base limit, and is total outstanding General Capital Fund debt within the 6% of Tax Base limit?
- 8. Do Capital Fund current assets exceed current liabilities and, if so, is an explanation provided?
- 9. Is bank borrowing in Operating Funds within the limit of 4% (General) or 50% (Utility) of Operating Budget for the year?
- 10. Is there a note to the statements indicating that Operating Funds borrowing is, or is not, within the limits?

- 11. Are the Warrant and Unconditional Grant amounts correct?
- 12. Do the statements reflect a transfer of 2nd previous year surplus/deficit to current year operations and, in Utility Funds, the basis for the amount?
- 13. Have proceeds from disposals of capital assets, if any, been reported as Operating revenue, or indicated as being used to acquire other assets in the year?
- 14. Are expenditures in Water and Sewer Utility Funds allocated between water system and sewer system?
- 15. Is the Water Cost transfer amount in compliance with the regulation?
- 16. Are Reserve Funds transfer amounts in compliance with the regulation?
- 17. Are transfers to and from reserves done by council resolution prior to December 31 and with the amount specified?
- 18. Are the balances within the operating reserve funds within the permitted maximum accumulation of 5% of previous year expenditures for operating reserves?
- 19. Are copies of council resolutions available for inclusion in the financial statements?
- 20. Where Reserve Funds have been used during the year, does the use of the funds comply with the purpose of the Reserve?
- 21. Do the statements include complete information about the transactions in Reserve Funds including the continuity of equity and the nature of investments?
- 22. Are funds in Reserves invested in accordance with the <u>Trustees Act</u>?
- 23. Do the financial statements report Budget and previous year comparative amounts?
- 24. Are accounts reported as carried forward from the prior year in agreement with the balances reported in the prior year financial statements?

- 25. Are there any unusual matters reported in the financial statements and not adequately explained?
- 26. Are the financial statements in the general format and style of the sample in the Manual?
- 27. Is a copy of the management or audit letter, if any, included with the financial statements submitted to the Department?
- 28. Have matters raised in the Department's reviews of previous years been dealt with and corrections made in the current financial statements?

INTRODUCTION

The Chart of Accounts has been extracted from the Federal Publication "A Financial Information

System for Municipalities" and it is recommended that this publication be referred to for an explanation of the concepts involved in preparing a particular chart of accounts.

The Chart of Accounts presented on the following pages is the minimum required for New Brunswick Municipalities, although many Municipalities will not require all of the indicated accounts. In most cases, additional detail will be required, in the form of supplementary accounts, to provide Municipalities with the information required by them and to assist in the preparation of Budgets, internal reports, and other documents. Within the expenditure classifications, for example, detailed operating expense accounts would be required for such items as salaries, benefits, telephone, insurance, etc. The intent is to provide a standard format for use by all Municipalities and in all reports and documents of general application; it is expected that the annual Financial Statements to be submitted to the Department will be produced from, and follow the logic of, the Chart of Accounts as presented.

CODING

The Chart of Accounts uses a five digit coding system following the pattern used in "A Financial Information System for Municipalities"; the first digit identifies the system - revenue, expenditure, assets, liabilities and equity, and the subsequent digits are used in a manner to indicate significant categories or groupings within each system, followed by various levels of detail.

Municipalities are not required to use the numbering system indicated, but the logic and sequence allows for a standard pattern of accounts that will be useful in producing external reports and in relating the accounts to Budget forms. In practice, modifications will have to be made to avoid having to utilize, in smaller systems, eight, ten, or more digits to provide for the detailed accounts such as operating revenues and expenditures at the level of, for example, insurance or telephone.

Municipality of Notes to the Consolidated Financial Statements

December 31, 2012

1. Purpose of the organization

The Municipality was incorporated as a (city, town or village) by the Province of New Brunswick Municipalities Act on November 9, 1966 and was approved for status as a Municipality Effective November 9, 1991 by an amendment of New Brunswick Regulation 85-6 under the Municipalities Act. As a municipality, the Municipality is exempt from income tax under section 149(1)(c) of the Canadian Income Tax Act. The Municipality has the following vision statement, "The Municipality, is to work in partnership, to serve our customers in an effective, efficient, professional and financially responsible manner. The Municipality will also facilitate orderly and responsible development while working with our customers to maintain and enhance the high quality of life in our community."

2. Change in accounting policy – each municipality will need to explain each change in this manner

Effective January 1, 2011, the Municipality has restated its financial statements to adopt the Public Sector Accounting standards (PSA). The changes made were to comply with the provisions of Section 3150, Tangible Capital Assets and to adopt full accrual accounting. Section 3150 has established standards on how to account for and report tangible capital assets. Tangible capital assets are a significant economic resource managed by government and a key component in the delivery of many government programs. The standard requires these assets to be recorded at historical cost on the balance sheet and their costs allocated to future accounting periods through annual amortization expenses based on the tangible capital assets estimated useful lives of the assets. The Municipality was required to record the historical cost of their tangible capital assets and accumulated amortization on a retroactive basis with restatement of prior years.

The Municipality determined historical cost based on historical accounting records, and discounted replacement costs. If historical cost could not be determined, the asset was recorded at a nominal value.

The Municipality calculated and recorded liabilities for its sick accrual, defined benefit pension plan and other post employment benefits.

The December 31, 2011 figures presented for comparative purposes have been restated from those previously reported. The following adjustments were made to the prior periods:

Adjustments to annual surplus (deficit)

Annual surplus, as previously reported in the operating fund	\$ 5,668
Annual surplus of other funds	1,059,238
Less: second previous year surplus	(19,752)
Less: sick leave	(7,700)
Less: amortization on tangible capital assets	<u>(1,115,528)</u>
Annual deficit, as restated	\$ (78,074)

Adjustments for net book value of tangible capital assets

As previously reported, December 31, 2010	\$21,578,211
Adjustment to historical cost of tangible capital assets, net	(2,113,036)
Amortization expense recorded	(1,115,528)
Adjusted net book value as at December 31, 2011	\$18,349,647

See Note 19 for the reconciliation of accumulated surplus (deficit).

Notes to the Consolidated Financial Statements

December 31, 2012

3. Summary of significant accounting policies

The consolidated financial statements of the Municipality are the representations of management prepared in accordance with Canadian generally accepted accounting principles for local governments, as recommended by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants.

The Municipality has adopted PSA as of January 1, 2011.

The focus of PSA financial statements is on the financial position of the Municipality and the changes thereto. The Consolidated Statement of Financial Position includes all of the assets and liabilities of the Municipality.

The entities included in the financial statements are as follows:

(Specify)

Significant aspects of the accounting policies adopted by the Municipality are as follows:

Reporting entity

The consolidated financial statements reflect the assets, liabilities, revenues, expenditures and changes in net debt and cash flows of the reporting entity. The reporting entity is comprised of all organizations and enterprises accountable for the administration of their affairs and resources to the Municipality and which are owned or controlled by the Municipality.

Interdepartmental and organizational transactions and balances are eliminated.

Budget

The budget figures contained in these financial statements were approved by Council on [Date] and the Minister of Local Government on [Date].

Revenue recognition

- (a) Unrestricted revenue is recorded on an accrual basis and is recognized when collection is reasonably assured. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred.
- (b) Other revenue is recorded when it is earned.

Use of estimates

The preparation of the consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. These estimates are reviewed periodically, and as adjustments become necessary, they are reported in earnings in the period in which they become known. Actual results may differ from those estimates.

Financial Instruments

The Municipality's financial instruments consist of cash, short-term investments, accounts receivable, due from the Province of New Brunswick, due from the Federal Government, due from own funds, bank loan, payables and accruals, funds held in trust and long-term debt. Unless otherwise noted, it is management's opinion that the Municipality is not exposed to significant interest, currency or credit risk arising from these financial instruments. The fair value of these financial instruments approximates their carrying values, unless otherwise noted.

Notes to the Consolidated Financial Statements

December 31, 2012

3. Summary of significant accounting policies (continued)

Financial Instruments (continued)

The Municipality is subject to credit risk through accounts receivable. The Municipality minimizes credit risk through ongoing credit management.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, balances with banks and short term deposits with original maturities of three months or less.

Tangible capital assets

Effective January 1, 2011, The Municipality adopted the provisions of PSA section 3150 Tangible Capital Assets. Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost of the tangible capital asset is amortized on a straight line basis over the estimated useful life as follows:

Asset type	<u>Years</u>
Land improvements	5-25 years
Buildings	40 years
Vehicles	3-5 years
Machinery and equipment	5-15 years
Heavy equipment	10-15 years
Computer hardware & software & communication equipme	ent 3-5 years
Furniture & fixtures	3-5 years
Road surface	5-15 years
Road grade	10-30 years
Bridges	30-50 years
Marine structures	25-30 years
Lighting / traffic lights	10-15 years
Water and wastewater networks	15-100 years
Dams and water structures	25-50 years
Leasehold improvements	Over the term of the lease

Assets under construction are not amortized until the asset is available for productive use.

Segmented information

The Municipality is a diversified municipal unit that provides a wide range of services to its residents. For management reporting purposes, the Municipality's operations and activities are organized and reported by function. This presentation was created for the purpose of recording specific activities to attain certain objectives in accordance with special regulations, restrictions or limitations. Municipal services are provided by departments as follows:

General government services

This department is responsible for the overall governance and financial administration of the Municipality. This includes council functions, general and financial management, legal matters and compliance with legislation as well as civic relations.

Protective services

This department is responsible for the provision of policing services, fire protection, emergency measures, animal control and other protective measures.

Notes to the Consolidated Financial Statements

December 31, 2012

3. Summary of significant accounting policies (continued)

Transportation services

This department is responsible for common services, roads and streets maintenance, street lighting, traffic services, parking and other transportation related functions.

Environmental health services

This department is responsible for the provision of waste collection and disposal.

Environmental development services

This Department is responsible for planning and zoning, community development, tourism and other municipal development and promotion services.

Recreation and cultural services

This department is responsible for the maintenance and operation of recreational and cultural facilities, including the swimming pool, arena, parks and playgrounds and other recreational and cultural facilities.

Water and Wastewater Systems

This department is responsible for the provision of water and sewer services including the maintenance and operation of the underground networks, treatment plants, reservoirs and lagoons.

Inventory of supplies

Inventory is valued at the lower of cost and net replacement cost with cost being determined on the first-in, first out basis.

Post Employment Benefits

The Municipality recognizes its obligations under post employment benefit plans and the related costs, net of plan assets. The Municipality has a sick leave benefit as documented in Note 10 and a long-term service award and pension plan as documented in Note 11.

Accounting for other significant account balances should be described here when there is a choice.

Notes to the Consolidated Financial Statements

December 31, 2012

9. Long-term debt (continued)

Principal payments required during the next five years are as follows:

2013	\$ 664,000
2014	1,014,000
2015	570,000
2016	383,000
2017	226,000

In 2013, debenture AL18 will mature with a final amount due of \$402,000 however, \$340,000 of this payment is expected to be refinanced during that year. In 2012, debentures AM11 and AN14 will mature with a final amount due of \$218,000 and \$532,000 respectively. These debentures will be refinanced for \$185,000 and \$494,000 respectively during that year. In 2013, debenture AO11 will mature with a final amount due of \$318,000 however, \$295,000 of this payment is expected to be refinanced during that year. In 2014, debenture AR20 will mature with a final amount due of \$154,000 however, \$123,000 of this payment is expected to be refinanced during that year.

10. Accrued sick leave

The Municipality provides sick Leave that accumulates at 10 hours per month for full-time non-administrative employees; and at 9.375 hours per month for full-time administrative employee. All employees can accumulate a maximum of 1,800 sick leave hours. An employee can take a leave with pay for an amount of time equal to the accumulated sick leave.

An actuarial valuation was performed on the 23 employee plan in accordance with PSA 3255. The actuarial method used was the Projected Unit Credit pro-rated on service to expected usage. The valuation was based on a number of assumptions about future events, such as interest rates, wage and salary increases and employee turnover and retirement. The assumptions used reflect the Municipality's best estimates.

The following summarizes the major assumptions in the valuation:

- annual salary increase is 3%;
- the discount rate used to determine the accrued benefit obligation is 4.53%;
- retirement age is 60; and
- estimated net excess utilization of rate of sick leave varies with age.

The sick leave is an unfunded benefit. As such, there are no applicable assets. Benefits are paid out of general revenue as they come due.

The unfunded liability was \$63,400 on January 1, 2011; \$71,100 on December 31, 2011; and \$81,600 on December 31, 2012. The liability for January 1, 2011 was recorded as a prior period adjustment on the adoption of PSA.

Notes to the Consolidated Financial Statements

December 31, 2012

11. Post employment benefits payable

a) Long term service award

Employees of the Municipality become eligible for this award after five years of full-time consecutive service. Qualifying employees are entitled to five days of regular pay for each full year of continuous employment to a maximum of 125 days. The accrued benefit becomes payable in the year an employee ceases working for the Municipality, either by retirement or leaving in good standing. There was \$21,635 in long term service awards paid out during the year (2011 – \$20,438).

b) Pension Obligation

If the municipality has a defined benefit pension plan, the following is required:

Defined benefit pension plan (Refer to PSA 3250 to ensure complete disclosure of your plan)

The Municipality sponsors a contributory defined benefit pension plan for substantially all of its employees. PLEASE DESCRIBE THE PLAN. The average age of the xx active employees covered by the plan is xx. At present, the plan provides benefits for x retirees.

Employees make contributions equal to x percent of their salary and the Municipality contributes x%. Total benefit payments to retirees during the year was approximately \$xxx (2011, xxx). Pension fund assets are invested in

Actuarial valuations for accounting purposes are preformed triennially using the xx method. The most recent actuarial valuation was prepared at *DATE* and at that time the pension plan had an accrued benefit obligation of \$xxx.

The actuarial valuation was based on a number of assumptions about future events, such as inflation rates, interest rates, wage and salary increases and employee turnover and mortality. The assumptions used reflect the Municipality's best estimates.

The following summarizes the major assumptions in the valuation:

- the expected inflation rate is x percent;
- the discount rate used to determine the accrued benefit obligation is x percent;
- the expected rate of return is x percent;
- retirement age is x; and
- estimated average remaining service life is x years.

Combined employer and employee contributions during the year were \$xxx (2011, \$xxx).

The Municipality's actuary performed an extrapolation of the December 31, xxxx valuation to determine the position of the plan as at December 31, xxxx. Pension fund assets are valued at market values. Plan assets are comprised of......

Results of the extrapolation are as follows:

Notes to the Consolidated Financial Statements

December 31, 2012

11. Post employment benefits payable (continued)

If the municipality has a defined contribution pension plan, the following is required:

Defined contribution pension plan (Refer to PSA 3250 to ensure complete disclosure of your plan)

The Municipality sponsors a defined contribution pension plan for substantially all of its employees. PLEASE DESCRIBE THE PLAN. During the year, the Municipality contributed \$xxx (2011, \$xxx) to the pension plan.

Market value of the pension plan asset	\$ XXX
Accrued benefit obligation	 XXX
Pension plan deficit	\$ XXX

The actuarially calculated pension liability at December 31, 2012 is \$xxx (2011, \$xxx).

12. Contingencies

In the normal course of operations, the Municipality becomes involved in various claims and legal proceedings. While the final outcome with respect to claims and legal proceedings pending at December 31, 2012 cannot be predicted with certainty, it is the opinion of management and council that resolution of these matters will not have a material adverse effect as the Municipality maintains insurance coverage in amounts considered appropriate.

13. Commitments

University of New Brunswick Saint John

In 2008, the Municipality committed \$55,000 payable over 10 years to the University. During the year a payment of \$5,500 (2011 - \$5,500) was made. The remaining \$27,500 is payable over the next five years.

New Brunswick Community College

In 2008, the Municipality committed \$25,000 payable over five years to the New Brunswick Community College. During the year a payment of \$5,000 (2011 - \$5,000) was made. The remaining \$5,000 is payable during the next year.

Notes to the Consolidated Financial Statements

December 31, 2012

14. Short-term borrowings compliance

Interim borrowing for capital

The Municipality has arranged a revolving operating facility bearing interest at 2.75% for the Water Fund. The facility is used to provide interim financing for capital expenditures.

The Municipality has ministerial authority for short-term borrowings as follows:

Water and Sewer Capital Fund, M.O. # 07-20

\$ 655,000

Operating borrowing

As prescribed in the <u>Municipalities Act</u>, borrowing to finance General Fund operations is limited to 4% of the Municipality's operating budget. Borrowing to finance Utility Fund operations is limited to 50% of the operating budget for the year. In 2012, the Municipality has complied with these restrictions.

Inter-fund borrowing

The Municipal Financial Reporting Manual requires that short-term inter-fund borrowings be repaid in next the year unless the borrowing is for a capital project. The amounts payable between Funds are in compliance with the requirements.

15. Water and Sewer Fund Surplus/Deficit

The <u>Municipalities Act</u> requires Water and Sewer Fund surplus/deficit amounts to be absorbed into one or more of four Operating Budgets commencing with the second next ensuing year; the balance of the surplus/deficit at the end of the year consists of:

		<u>2012</u>		<u>2011</u>
2012 Surplus 2011 Deficit 2010 Surplus 2009 Deficit 2008 Surplus	\$ s	737 (7,783) 7,771 (7,783) 	\$	(7,783) 7,771 (7,783) 14,304 6,509
	<u></u>	(1,300)	Ψ	5,000

16. Water Cost Transfer

The Municipality's water cost transfer for fire protection is within the maximum allowable by Regulation 81-195 under the <u>Municipalities Act</u> based upon the applicable percentage of water system expenditures for the population.

17. Funds held in trust

Funds administered by the Municipality for the benefit of external parties are not included in the consolidated financial statements. The amount administered in 2012 was \$nil (2011 \$nil).

22 - Statement of Reserves

Council Resolutions regarding transfers to and from reserves:

Moved by Councillor Smith, seconded by Councillor James that \$297,587 be transferred from the General Operating Fund to the General Capital Reserve Fund.

Moved by Councillor Gregg, seconded by Councillor Richards that \$18,000 be transferred from the General Operating Fund to the General Operating Reserve Fund.

Moved by Deputy Mayor Phillips, seconded by Councillor Ferris that \$17,500 be transferred from the Water and Sewer Operating Fund to the Water and Sewer Capital Reserve Fund.

Moved by Councillor Corbett, seconded by Councillor Banks that \$2,500 be transferred from the Water and Sewer Operating Fund to the Water and Sewer Operating Reserve fund.

I hereby certify that the above are true and exact copies of resolutions adopted at a special meeting of Council on December 28, 2012.

John Doe		
John Doe Clerk,	Date	Municipal Seal

24. Reconciliation of Funding Deficit upon Adoption of PSA

FOR EXAMPLE ONLY*

Other liabilities not

	Defined Benefit Pension Liability	Vested Post Employment benefits	previously recorded (please specify)
Liability at December 31, 2011 as calculated on adoption of PSA	500,000	100,000	
Amount of December 31, 2011 liability funded in current year	50,000	14,286	
Amounts funded in prior years	50,000	14,286	
Balance to be funded in future years	400,000	71,428	

^{*} These numbers have not been included in the determination of the fund surplus. The transitional provisions allow the municipalities to begin funding the liability in 2013. The schedule should be altered or repeated to accommodate more than one fund.

Notes to the Consolidated Financial Statements

December 31, 2012

26. Accrued post-closing costs (for solid waste commissions)

The Commission is responsible for the continued monitoring and treatment of the site following its closure.

The accrued liability for post-closing costs has been determined based on estimated post-closing costs of \$xxx (2011 - \$xxx) per year, in future dollars, for a period of xx years commencing in *DATE*.

Post-closing costs are discounted at a rate of x% (x% nominal rate less x% assumed inflation) (2011 – x% (x% nominal rate less x% assumed inflation)) for a current estimate of \$xxx (2011 - \$xxx) required by the end of *DATE* to fund post closure expenses.

At December 31, 2012 the remaining capacity of the landfill had been estimated at xxx metric tonnes of which xxx (2011 – xxx) metric tonnes remains unused as at December 31, 2012.

At December 31, 2012 the estimated post closure liability is \$xxx (2011 - \$xxx) of which the *ENTITY* has funded with cash, term deposits, and Provincial government bonds with a cost of \$xxx (2011 - \$xxx) with maturities from one to three years and a market value of \$xxx (2011 - \$xxx) for a surplus of \$xxx (2011 - \$xxx) based on market value, at year end.

Investment detail is as follows:

Investment detail

	December 31, 2012 Amortized Cost Fair Value				December 31, 2011 Amortized Cost Fair Value				
Term deposits Provincial strip bonds Cash	\$	XXX XXX XXX	\$	XXX XXX XXX	\$	XXX XXX XXX	\$	XXX XXX XXX	
	\$	XXX	\$	XXX	\$	XXX	\$	XXX	

Fair values have been determined based on quoted market rates supplied by INVESTMENT COMPANY.

Details of significant terms and conditions, exposure to interest rate and credit risk on bonds and term deposits are as follows:

•		2012	2011
	Interest receivable	Effective rates	Effective rates
	Basis	(% range)	(% range)
Term deposits	annual	x to x%	x% to x%
Provincial strip bonds	on maturity	x%	x%

Strip bonds pay no interest until maturity. Strip bond prices depend on the current interest rate levels and fluctuate from day to day until maturity. Strip bond prices are always below par (\$100). The interest earned is the difference between the discounted purchase value and the stated maturity value. Regardless of how general interest rates fluctuate in the interim, the rate of interest (or yield) earned is guaranteed as long as the strip bond is held to maturity. Since there are no extra charges associated with a strip bond transaction, the quoted yield is the actual compounded semi annual (or annual) yield that you will earn throughout the life of the security if held to maturity. The Commission has full intentions to hold all strip bonds until maturity.

The maximum exposure to credit risk would be the fair value as indicated above.
