DESCRIPTION OF THE NURSING HOME SERVICES BRANCH AND PROGRAMS

Nursing Home Services

Nursing Home Services is responsible for the nursing home program. It sets and monitors policies and standards, inspects nursing homes for licensure and provides subsidies for eligible individuals who cannot cover the full cost of nursing home care. In addition, Nursing Home Services provides consultation services to the nursing homes.

Nursing homes provide service to individuals whose care requirements exceed the support available from family and other community care providers, but who are not at the point of requiring hospital based extended/restorative care or acute care. The residential services provided in nursing homes are designed to maximize the individual's physical, social, and psychological independence.

The Nursing Home Services policies and standards are based upon and administered under the *Nursing Homes Act* and the Regulations under this Act.

PROLOGUE

Nursing Home Services takes pleasure in distributing its **Annual Statistical Report** for the year ending March 31, 2005. The information contained in this report will provide the user with a global perspective of the nursing home program in New Brunswick.

The report includes data on the two previous fiscal years, so that users will be able to track trends and analyze some of the data. Some tables contain more than a two year trend.

As the data base becomes more refined, new data is added and significant variations are explained to help the users understand current trends.

NOTE:

On April 1st, 2003, Family and Community Services re-organized its regional boundaries from seven regions to eight regions. The former Region 6 which included the Bathurst and Acadian Peninsula was separated to create a new Region 8 which covers the Acadian Peninsula. All of the statistical information has been separated to reflect this change starting on April 1st. This report reflects the separation where possible for the previous year statistic and if it is not available (NA) has been added in the column.
