

**NUMBER 16**

**February 26, 2021**

**SUBJECT: 1. IMPORTANT CHANGES TO FRONT END SPECIFICATIONS**

The Department of Transportation and Infrastructure, Buildings Division has made significant changes to the front-end specifications, including the “standard front end” and the “project specific front end”. Changes were made to account for the pandemic, for electronic bidding, and for miscellaneous updates. DTI will not accept tender packages with the old version of the front end specifications after March 19. Consultants preparing a tender package are required to download and edit the new “project specific front end” sections. They can be found at the following website address:
